Second Opinion · EvidenceLens Sample Document

This document provides sample information for testing the EvidenceLens AI auditing platform.

1. Supported Fact: EvidenceLens uses PyMuPDF for document parsing and text extraction.
2. Contradictable Value: The maximum allowed file size for PDF uploads is 10MB.
3. Unsupported Claim Test: (This document intentionally does not mention the creator's name).
4. Ambiguous Statement: The platform relies on modern AI models, which can process information quic

Please use these facts to test the claim verification engine.
